

DANGEROUS GOODS APPROVAL

Ground Operations Standards

(Dangerous Goods and Special Load Manual – Chapter 2)

Passenger:	Members of The Screen Industry Guild of Aotearoa New Zealand (when requested, membership identification must be produced)
-------------------	--

Approved to Carry:	Spare Batteries – up to 58 (includes lithium ion not exceeding 100Wh, non-spillable up to 12V and 100Wh and dry cell batteries) and Spare Lithium Ion Batteries – up to 2 exceeding 100Wh but not exceeding 160Wh
---------------------------	--

Effective:	1 st January 2022 to 31 st December 2022
-------------------	--

This document permits carriage of the above passenger's **spare batteries up to 60 (including two lithium ion batteries exceeding 100Wh but not exceeding 160Wh)**, on Air New Zealand, provided the following carriage requirements have been met:

Carriage Requirements

- all terminals must be protected e.g. retail packaging, taped, speciality container etc.
- not more than 60 (in total) are permitted
- carried in **carry-on baggage only**

Note: *Batteries in equipment are permitted in checked baggage, provided they do not exceed the above battery limits and the equipment is protected from damage and can't be accidentally turned on.*

Please extend every assistance to members of the Screen Industry Guild of Aotearoa New Zealand, with the carriage of these items.

Important

This Approval includes the carriage of a maximum of **two** lithium ion batteries exceeding 100Wh but not exceeding 160Wh.

Yours sincerely
