

Please find an update to the ScreenSafe Health and Safety Protocols for the New Zealand Screen Sector. Please note this update includes both adjustments based on feedback received to date, including legal feedback, and also updates around the changed guidelines from Government around safe practices for businesses operating under Level 2 of the Covid - 19 response.

The changed or updated sections include:

Page 10 - General Guidelines.

Pages 11 - 26 – Covid-19 Alert Levels Guidance - please particularly note the that there have been small adjustments under Level 2.

Pages 27 - 29 - Physical Distancing / Hygiene - Appropriate Guidance for Level 2

Page 33 - Project Registration Information

Pages 34 - 35 - Health Declaration

Pages 42 - 53 - Bubble Breakdowns

As before, please note this is a living document, developed to support you in minimising exposure to Covid-19 whilst working in the Screen Sector.

Please ensure you have policies and procedures in place that are specific to your production, and that actively work to manage the risk of transmission of infection within each workplace.

This guide does not remove or replace obligations under the *Health and Safety in the Workplace Act 2015*, and must accompany a robust approach to workplace Health and Safety generally.
